

Image	
Product name:	Hydroxypropyl Beta Cyclodextrin
CAS:	128446-35-5
Grade:	
Details:	<p>Technical Parameter</p> <p>Appearance: White powder,sweet,insipid and innocuous</p> <p>Shelf life: 36 Months</p> <p>Grade: Oral and Injection</p> <p>Application: Pharmaceuticals,Food,Cosmetics</p> <p>Molecular Weight: 1431-1806</p> <p>Standard: USP-NF2022,EP10.0,ChP2020,In-house Standard</p> <p>Solubility: ≥100(25℃,g/100ml)</p> <p>Heavy metal: ≤0.0025%</p> <p>Product Description</p> <p>Hydroxypropyl beta cyclodextrin beta cyclodextrin is an important cyclodextrin derivatives.it can be used as solubilier,embedding</p>

medium, stabilizer and odor absorber in various fields.

In Pharmaceuticals

Hydroxypropyl beta cyclodextrin is a solution to insoluble or low solubility drugs (including plant extracts). Through molecular encapsulation, it could increase the drug solubility and control the release rate of the drug, increase the drug's bioavailability and reduce the toxic side-effects.

In Food

Hydroxypropyl beta cyclodextrin could increase the stability of molecular nutrition and long-time effect, cover up or adjust bad smell and tastes of food nutrition molecular, improve production process and product quality and extend the shelf-life.

In Cosmetics

Hydroxypropyl beta cyclodextrin used as stabilizer, emulsifier and odor absorber. It could reduce organic molecules stimulation to skin mucosal and enhance the stability of the effective components. Prevent volatile, oxidation of nutrient composition, increase the solubility of insoluble flavours and fragrances and keep the fragrance slow releasing and lasting.

Package:

20KG/Drum、 10KG/Drum、 1KG/Bag、 500G/Bag
